ASSESSMENTS

Professionalism & Engagement

Engagement and professionalism in the classroom are critical to success. Punctuality, regular attendance and full participation are ways for students to demonstrate professionalism and engagement and, therefore, will be graded. Success in this course requires active, positive and professional engagement in class activities and discussions, reflecting thoughtful consideration of course material. Additionally, the midterm and final exams will be based directly on class lectures, discussions and activities.

Regular student attendance and engagement are essential to success in this course.

The material covered in the online classes will be cumulative and missing a class(es) will put a student at a serious disadvantage. A large number of skills must be mastered, and a great deal of specific information must be understood.

If you do miss class(es), please let the instructor know, in advance if possible, and the instructor can then tell you how to make up for the missed class(es). Upon returning to class after any absence, students are responsible for checking with the instructor for work or handouts missed during their absence.

Students are responsible for reading the text before class as the classes are designed to highlight the content in the text. The instructor will base lectures and activities on the assumption that the students have already reviewed or read the material for that day.

The most successful students are those students who complete and check with the answer key all the exercises in the workbook for each chapter before doing the hand-in work for that chapter.

Assignments

All assignments must be handed in ***before the beginning of class*** on the day requested unless otherwise indicated.

Late assignments will lose 10% per day penalty for each of the first three days. No assignment will be marked after the three-day penalty period.

If you feel you have a valid reason why you should not be subject to the penalty, it is your responsibility, as soon as you return, to inform your instructor. All late assignments that are submitted for grading purposes must be accompanied by a written explanation that includes the following:

- Your name
- Course name
- Reason for late (doctor's note if applicable)
- Original due date
- Date submitted

If you know ahead of time that you will be absent, it is your responsibility to provide a written explanation to your instructor. Arrangements can then be made with your instructor for your assignment due dates.

Tests

The term tests and final exam must be written and completed within the scheduled time.

In the rare instance that you might miss a term test, it is your responsibility to notify the instructor in advance and bring a doctor's note or a written explanation when you see the instructor as soon as you return in order

to arrange an alternate test time. The test must be written within five (5) days of your return. If no valid reason is given for missing a test, your mark for the test will be “0”.

If you are unable to write the final exam because of illness, you must notify your instructor in advance and provide a doctor’s note to be allowed to write at a different time. The exam must be written within five (5) days of your return.

EVALUATION:

Assignments	15%
Quizzes	10%
Term Tests (3)	30%
Professionalism & Engagement	10%
Final Exam	35%
Total	100%

Grades on Transcript

For transcript purposes, percentage marks are converted into letter grades according to the following system:

A = 90 – 100

B = 80 – 89

C = 70 – 79

Note: D = 60 – 69 **“D” does not meet the standard as a prerequisite for ACCT220**

F = under 60 (Fail)

Students may officially withdraw from a course or program without academic penalty until two thirds of the course contact hours have been completed. The last day that a student may formally withdraw from ACCT 120 without academic penalty is **Friday, November 5, 2021**. Failure to complete the course from that date will result in an “F” indicating failure on your transcript.
