

Week 5 (July 29 - August 2)

Ages 6 - 8:

CHEMISTRY KIDS

Cost: \$350

Explore the magical world of chemistry! Youth in this camp will have the opportunity to learn about this amazing field of science through fun, interactive experiments and reactions. Combined with plenty of games and outdoor activities, this is sure to be a radical week! This camp is co-ed.

Ages 9 - 11:

BLAST OFF

Cost: \$350

It's time to explore what adventures are out there in space! Youth in this camp will get the chance to build their own creations as they learn about how math and physics combine together to get astronauts into space. As always there will also be plenty of time outdoors to help youth stay active. This camp is co-ed.

Ages 12 - 14:

CULINARY SCIENCE

Cost: \$350

Cooking and baking require incredible amounts of math and science. For this workshop, youth will learn to create their own unique dishes in the same kitchen that apprentices at the university use! This workshop will include lots of snacking and activity outside! This workshop is co-ed.

***** This workshop is capped at 12 participants**
